

FOUNDATION UTILITIES LTD
ISSUE 1 REV 0 – 24TH FEBRUARY 2008

ENVIRONMENTAL POLICY

Foundation Utilities will:-

- Provide, as a minimum, a standard of environmental management which is appropriate to the nature, scale and impact of our activities and services. The environmental management system will fully comply with all applicable legal requirements and with other requirements to which we subscribe and which relate to our environmental aspects.
- Provide adequate and appropriate resources (including staff) with the information, instructions, training and supervision necessary to enable them to comply with, implement and continually improve the environmental management system, its policy and associated procedures.
- Minimise our environmental impacts, prevent pollution, and reduce resource usage of our own office bases activities. This will be done by establishing environmental objectives and targets which will be monitored regularly.
- Encourage clients to prevent pollution and minimise the adverse impacts of projects in all phases.
- Maintain a constant and continuing interest in environmental management matters applicable to our activities by consulting and involving employees wherever possible to achieve a continuing cost effective improvement in performance.
- Periodically review the policy and the management system and audit the compliance of both.

Approved for Issue.....**Health & Safety Director**
